FOR IMMEDIATE RELEASE

NorthStar Technology Group Acquires eWranglers
IT company expands cybersecurity and technology strategy to larger markets

FARGO, ND, March 2, 2022 --NorthStar Technology Group, Inc., an independently-owned technology managed services company focused on helping small and medium sized businesses create business success by developing fast, SECURE and always available technology solutions, today announced its acquisition of eWranglers, LLC, an independent Information Technology firm servicing Montana and Colorado.

"Helping to protect our customers' information and reputations is one of the pillars of NorthStar Technology Group's strategy, and we're committed to continually improving and expanding our solutions." – Amber Smith, Communications Manager, NorthStar Technology Group

eWranglers employees will join the NorthStar Technology Group team and remain based in Bozeman and Denver. Their information security expertise will further strengthen the end-to-end capabilities of the NorthStar Technology Group platform and enable our customers to in turn better serve their customers. eWranglers will be working with their existing customers to transition to the NorthStar Technology Group managed services and security platform providing a more expansive offering.

"Helping to protect our customers' information and reputations is one of the pillars of NorthStar Technology Group's strategy, and we're committed to continually improving and expanding our solutions," said Amber Smith, Communications Manager, NorthStar Technology Group. "In 2020, we were proud to announce drastically improved cybersecurity protections and platforms. Now, we're excited to take the next step: bringing eWranglers and NorthStar Technology Group together will give all our customers expanded access to technical talent, cybersecurity solutions, and decades of technology strategy."

The acquisition complements NorthStar Technology Group's strategic focus to help organizations protect their information assets and grow their businesses through better use of technology.

Specific examples include:

- Improve the security and protection of information while protecting business reputations of our customers
- Improve employee satisfaction by ensuring easy and reliable access to the technology to run our customers' businesses

- Provide freedom and protection by leveraging cloud technologies and enabling our customers to work without borders
- Keep our customers out of trouble by ensuring compliance requirements are met cost effectively

Bringing eWranglers together with NorthStar Technology Group will provide better outcomes for small and medium businesses by improving their information security posture, providing them a great pool of technical talent, and expanding the geographic footprint of our service offering," said Stephen Zetzer, CEO, eWranglers. "We look forward to leveraging our combined team to continue our journey to understand and serve the market not just for today, but for the future."

Because both NorthStar Technology Group and eWranglers provide similar services to various markets, this acquisition will **allow NorthStar to expand capability and tools to service customers in larger markets.**

"The collaboration of the information technology industry behind NorthStar Technology Group will lead to faster adoption of best practices solutions, which leads to faster innovation and better business outcomes. As an industry, it is more efficient to be working together and collaborating on resources to improve our standard of care for our customers," said Ken Satkunam, CEO, NorthStar Technology Group. "Adding the eWranglers team members to NorthStar Technology Group gives us stronger information security and network management capabilities to provide even better service to our customers."
